

At AB Mauri North America, everything we do is guided by our core values

- Furthering environmental sustainability
- Being responsible for our people
- Supporting communities
- Promoting good health
- Doing right by our business

Examples of ongoing ESG measures within our U.S. & Canada businesses

Environment

Water Conservation

- Reducing water usage and waste in ingredient production
- Reusing water from condensation and cooling processes
- Exploring new water conservation measures

Energy Conservation

- Installing energy-efficient lighting in our manufacturing facilities
- Reducing yeast production energy requirements
- Housing our ABMNA headquarters within a LEED-certified facility
- Exploring alternative energy sources
- Installing solar panels to supply all power for select warehousing

Air Quality

- Substituting to organic-based cleaning solutions in our manufacturing facilities
- Reducing the number of sanitation chemicals utilized
- Reducing ammonia vapor production
- Optimizing shipping routes to reduce emissions

Social

- Collaborating with municipalities to further relationships
- Making smart, local choices for substrate materials
- Donating bakery ingredients for local social enterprise bakery and food pantry use
- Supporting dozens of local organizations through time and monetary donations

Governance

- Core monitoring for anti-bribery, anti-corruption and anti-competitive behaviors
- Task force creating climate-related financial disclosures and greenhouse gas reporting
- Monitoring for data protection, IT security and whistleblowing
- Assessing ESG performance and metrics
